2. Did the project address a PICO question?

3. Did the project include a brief one paragraph discussion of relevance of the project topic to your preceptor community?

4. List of references (on separate page): minimum of 5 references all of which meet the POEM criteria as defined in the “Introducing POEMs” AFP article (…answers “yes” to the following three questions)

5. Is the project in the appropriate POEM format and address all items (clinical question, bottom line, reference, study design etc…)
